Mean is the average of the group of student scores for that item on the course feedback survey.

Standard Deviation (Std. Dev.) is a measure of how spread out the scores are around the mean. The higher the value for the standard deviation, the more spread of the scores are; a lower standard deviation indicates that the student scores are more clustered around the mean.

Section VI: Your Comments Are Valued

What are one to three specific things about the class that supported your learning?

- Very well organized and instructed

- Clearly organized
- Very interesting lectures

Knowledgeable professor who understood
Students well.

The groups were good to work with to
get everyone's input. It was also good to
have the reviews before the exam
that was helpful to go over everything
before.

I liked how we had group work assignments in class

group work
essays
lectures

-
- 1) cyrus was very relatable and easy to get along with.
 - 2) cyrus answered emails quickly.
 - 3) cyrus made class engaging, fun, quick.

I love that attendance is not mandatory because I can use that time to prepare when the course has incidents like group work. The relevant announcements in Canvas for this course are also extremely helpful and I think you do a wonderful job on communication.

The study guide and exam review are very helpful for being prepared with the exams.

-
1. I enjoyed the group work and thought it was helpful.
 2. Class discussions were helpful + frequent.

Professor was very knowledgeable and engaging

Cyrus was very understanding of how life is of an undergraduate student

truly great teaching style

- Organization
 - Collaboration
 - Relevance
 - Relatable professor that actually wanted to talk to us + hear what we think
-

Explaining why concepts/topics are important to learn about & not just teaching to teach.

- This is one of the few required classes that I've actually enjoyed, would recommend, and wanted to come to class.
-

- notes were posted
 - easy structure
-

What are one to three specific things about the class that could be improved to better support your learning?

- Better communication outside of class

i) more resources on canvas.

I think more full-class group work assignments
would be a fun idea

1. A little more organization of dates could be helpful.

- N/A

- no notes, favorite class

Cyrus could have better movie opinions.

I didn't like how the professor would say things like "I may cancel class if I don't feel like coming in" or stopping a lesson because the other kids didn't want to go over the slides.

Nothing
Not much

• Sometimes he'd say things in class for assignments
I wish he'd post the announcements because
I wouldn't have enough time to write it all
down + I'd forget it all.

Nothing - this was one of my favorite classes I've taken at
Missouri
